

JUDITH CARRILLO

Health Education Advocate

I am running for School Board to be a voice for our community and fight for academic excellence and safe learning environments for our students, teachers and parents. Like many of you, after receiving my bachelor's degree from Allegheny College in Pennsylvania, I returned to Santa Ana to give back to our community.

As a graduate of SAUSD and as a current COVID-19 health call center representative, I have seen the essential role our schools play in maintaining the health of our students and the community at large.

Santa Ana is a diverse community. As an advocate for underserved communities, I will promote our children's healthy development, create partnerships between our schools and local non-profits regarding college and career pathways, and provide students meaningful life skills by emphasizing financial literacy, internships and job programs.

Santa Ana voters need more transparency in how our public tax dollars are spent. I am calling for a top-down public audit of all SAUSD spending. We can increase accountability to the community by having annual public reviews of academic student performance outcomes, campus safety, and a multi-year strategic plan.

I respectfully ask for your vote.
