

TRUNG TA

Retired

I have worked for aerospace companies for 35+ years as Engineer and Manager. I am also a successful businessman and known in the Vietnamese community as an educator and a community leader.

Garden Grove is a great city and I wanted to make it better with focus on:

Public Safety:

This remains my priority. We must work to reduce property crimes, gangs and graffiti; while protecting families, property values and businesses. We have to increase the number of police officers patrolling with focus on anti-gang initiatives and neighborhood safety, improve community-oriented policing.

Homelessness:

Homelessness is the major problem not only for Garden Grove but also for neighboring cities. It impacts residential life and local business. We must work together with other cities to find long-term solutions to end homelessness.

Small Businesses:

Garden Grove should benefit from our strengthening small business. I encourage partnerships between our city government and business owners to revitalize local businesses.

Community values:

I will be dedicated to maintaining our community values through partnership and collaboration with residents, business owners, community organizations, and City employees.

As your City Councilmember District 4, I will listen to your concerns and respectfully ask for your vote.
