

**DIANA FASCENELLI**

Business Woman

As a former Controller for an Agricultural Association, and current small business owner, I learned to be effective, I must actively listen to people to seek and understand all sides of an issue. As a two term City Council Member for the City of Villa Park, I attended the Serrano Water District monthly meetings. I encouraged the Water District to be transparent, informative, and mindful of water rates within the community. This District has not voted for a director in over 20 years. With the current and future climate of water restrictions it is vital that the district follow conservative business strategies, seek new innovations and have long term planning for the residents.

Serrano Water serves approximately 6500 residents in Villa Park and Orange. With my City Government background and as a small business owner, I have the knowledge to ensure Serrano Water becomes an effective and efficient service provider. Raising water rates every year is not the answer. Now more than ever it is important to have an elective official that represents the Community.

Vote Diana Fascenelli for Serrano Water District #4
