

KYLE MILLER

Education Policy Advisor

Hi, my name is Kyle Miller and I'm running for North Orange County Community College District to fight back against those who have injected partisan politics into our local schools.

Divisive cultural issues have been repeatedly brought into our local college district, distracting from what truly matters. These actions, and calls for trustee censure, distract the board from supporting students.

Our colleges suffer when the focus is on partisan politics and not on our students' success. I'm running because it's time to Get Politics Out Of Education.

I have a long history of serving the community, starting as a small business owner, which taught me the importance of fiscal responsibility.

As the Mayor of La Habra Heights, I built strong relationships and solved community challenges.

As a Chamber of Commerce CEO, I championed quality job opportunities for our college graduates.

I currently serve as an advisor to a State Senator, advocating for community issues and building strong relationships to get things done.

As a NOCCCD Boardmember, my priorities will be:

- Focusing on student success
- Ensuring competitive pay for faculty and staff to attract and retain experienced educators
- Bringing both STEM and apprenticeship programs to our local colleges

I would be honored to earn your vote.
