

DAVID CROCKETT**AGE: 58**

Rancho Santiago Community College District Trustee

As your Trustee for the Rancho Santiago Community District, I attend the graduation ceremonies of Santa Ana College and Santiago Canyon College every year. Since my election, more and more students are benefiting from an affordable and high-quality education. They are moving on to four-year colleges or professional careers. I am running for re-election so I can continue to prepare the next generation for a successful future.

During my time in office, the Rancho Santiago Community College District has increased staff to manage record enrollment growth, expanded apprenticeships programs & adult services, and maintained a sensible budget that saw our reserve funds grow. To achieve these goals, I have diligently and actively participated in committee and board meetings and college sponsored community events.

Most importantly, Santa Ana College & Santiago Canyon College were both cited as among the best community colleges in California, and student transfers to UCs, Cal States, and other higher education institutions has grown.

Whether you are a retiree committed to lifelong learning, a first-generation immigrant taking ESL classes, a working adult looking to gain technical skills or a recent high school graduate; my continued mission is to make the Rancho Santiago Community College District an affordable and quality institution for higher education that promotes personal and professional development. I hope to earn your vote.
