

**SUZIE SWARTZ**

Governing Board Member, Saddleback Valley Unified School District, Trustee Area 3

Our community deserves high achieving schools where all children feel safe, welcome and excited to learn. As a parent and Trustee, I know the importance of being accessible to listen and collaborate with parents, teachers, staff and other stakeholders for student success.

Our school district has high academic standards supported by excellent teachers. We must continue to adapt to changing academic and mental health needs of students as we address today's academic and behavior challenges, while bolstering efforts to reduce class sizes with added classroom supports. I'll continue to emphasize the Basics, Career Technical skills, Arts Education, and Athletics to prepare students to achieve their potential, whether they are college bound or seeking immediate employment.

As your Trustee, I always foster open lines of communication with stakeholders including students, while promoting safety, academic and fiscal accountability, transparency, and local control. I'll continue to leverage my school district experience to help navigate budget challenges and pursue additional resources.

In our community, I have earned a reputation for integrity, open-mindedness and dedication. As a Trustee, parent, PTA member and community volunteer, I am committed to keeping our district focused on serving all our students.
