

AMANDA MORRELL

Governing Board Member, Saddleback Valley Unified School District, Trustee Area 4

Our students' futures depend on a strong, unified educational community. I am dedicated to prioritizing the needs of students, teachers, staff, and parents, and advocating for positive student outcomes.

For our district to thrive, we need unified partnerships, strong community involvement, and a safe, supportive environment fostered by transparent communication and regular feedback. Our campuses must be safe and nurturing for everyone, and our teachers and staff deserve competitive salaries and opportunities for professional growth.

Resources should be directed towards enhancing student classrooms, mental wellness, and key areas such as STEM, career technical education, the arts, personal development, and real-world learning experiences. I will address pressing issues like class size, safety, and student-centered learning.

I am committed to fostering collaboration on school improvement, ensuring a supportive environment that inspires, empowers, and embraces student success as well as ensuring our education dollars are effectively and responsibly spent. Fiscal transparency and accountability will be a cornerstone of my approach.

Education paves the way for a skilled workforce, engaged community members, and promotes economic growth and well-being. Our students are our future — continuing to serve them is my priority.

Please vote for Amanda Morrell for SVUSD Board of Education.
