

MICHAEL STANNARD

Businessowner/Lake Forest Commissioner

I'm a parent of four children who've attended SVUSD schools. I'm a business owner and 27-year Lake Forest resident who was motivated to run for school board when a district administrator shockingly stated, "Don't worry, your daughter only needs Ds to graduate."

This mindset is pervasive in our district's leadership, undermining student potential, minimizing academic excellence, and delivering negative outcomes. I will change this environment.

Every student deserves the chance to succeed with a high-quality education, and parents should be able to choose the best schools for their children — public, charter, private, or home.

I've successfully led organizations and non-profit boards (including at El Toro) through crises and delivered excellent results. I will lead the district through its current crisis of administrative apathy by undertaking a "back-to-basics" and safe school environment approach.

To accomplish this, I will unwaveringly support:

- Remediating Pandemic Learning Loss / School Choice
- Career Technical Education / Teacher Meritocracy
- Campus and Student Safety / Parental Authority
- Protecting Proposition 13 / Keeping Tax Dollars Local
