Broker/Business Owner

No New Taxes. Basta! John Briscoe demands we cut wasteful school district spending. Every penny counts. The administration must conserve our precious financial resources. Vacant open and empty classrooms must be put to use. Closed school sites cannot just sit with no public use; it's a waste of taxpayer dollars.

No New Taxes. Basta! John Briscoe demands a contained OVSD charter school for maximum staffing flexibility. Hundreds of OVSD children currently attend charter schools at great distances and costs to families. OVSD Charter Achievement School will bring charter school services directly to our families. Custom curriculum and expanded learning.

No New Taxes. Basta! John Briscoe demands a real home school program be installed. Over 500 resident children currently enroll in public school home school programs hundreds of miles away. Children suffer without easy access to tutoring and direct licensed teacher instruction. Create a real home school program, not just 'remote learning' from COVID shutdown days.

No New Taxes. Basta! John Briscoe demands a Truant Officer be hired. Missing children will be found and brought to school. Hundreds of children miss school daily; many students are chronically absentees. Children lose education, and OVSD loses funding due to missing attendance enforcement.
