

CHRISTINE MARICK
Council Member/CEO

I am honored to represent all of Brea as a Council Member, Mayor, and representative on County Commissions, Committees, and Boards. With my municipal finance and business management background, education (UCLA MBA, Georgetown BSFS), and City Council experience, I focus on financial details and policy matters that affect our residents and businesses every day to keep Brea the premier North Orange County city.

My priorities remain:

Fiscal responsibility and strong financial reserves.

Public safety, including efforts to reduce homelessness, retail and residential crime as well as expand fire services and in-house ambulance transport.

High quality customer service and community services.

Open space preservation.

Investments in our infrastructure – parks, water, sewers, roads.

Local control here in Brea, not Sacramento.

We are a thriving community with great neighborhoods, schools, services, and businesses. I am committed to protecting the taxes we all pay and ensuring that city funds are used prudently. Brea cannot afford to waste resources. I will continue to work collaboratively and professionally with my colleagues and provide policy direction to city staff because working together toward our common goals will keep Brea a great place to live, work, and play.
