

GLENN BUTTON

Business Owner/Engineer

I love our City of Cypress, having been a 29-year homeowner in District 4. My wife and I have raised our three daughters, volunteered in the city and invested in this city. I have been an aerospace engineer, a successful business owner and now a process consultant. I served on the Cypress Senior Citizens Commission and have engaged regularly at City Council meetings. I bring the leadership, analytical and team-building experience needed as a City Council member. I will work to keep our city the wonderful, welcoming place we know and love.

I will prioritize community safety, provided by our police and firefighters who keep our neighborhoods secure.

By balancing our infrastructure with fiscal restraint, I will keep our roads in great shape, while protecting our low taxes and strong financial position. I support responsible development of our residential communities and businesses.

I will continue building partnerships with all local schools for developing and educating our next generation.

I will work to improve clarity in communications with our residents through our Cypress App, webpage, social media and public forums to ensure continued fact-based information sharing.

Working together, we can sustain Cypress as a great place to live, work, play, invest and retire.
