

LINDA WHITAKER

I'll stand up for the rights of all Fullerton residents, businesses and neighborhoods. My role as Council Member is to represent you at City Hall, and not the City against you.

I will insist upon and vote for realistic, balanced City budgets that make neighborhoods safer for all of us, especially children. We must maintain responsive, effective public safety departments that protect public spaces, property, parks and people. We must keep marijuana dispensaries far away from homes, schools, parks and our children. More State and County funds are necessary to better address homelessness.

Further, I'll prioritize and push to accelerate repairs and replacement of streets, water mains, street lights, sidewalks, alleys, sewage and sanitation systems.

I was raised in southwest Fullerton, and have lived here since I was three years old. I schooled at Pacific Drive Elementary, Nicolas Junior High and Sunny Hills High School. I know our city well and want to improve conditions for all of us. For more than twenty years I've been deeply involved in civic and municipal activities in Fullerton and beyond. My experience in local government has prepared me to well and faithfully serve you. I respectfully ask for your vote November 5th.
