

DON CASKEY

Registered Architect/Planner

Don Caskey, City of Laguna Hills Council Member/Businessman

My first priorities are for the safety of our residents, economic development, and renewal of our parks and community infrastructure. We have invested significantly to enhance public safety with new sheriff and security personnel. That commitment has seen very positive results.

In 2022, I was elected to complete a two year term on City Council. Previously, I served as an Associate Vice Chancellor with the University of California.

I have unique qualifications as an architect/planner and will use these leadership skills for a new City General Plan. I currently sit on our Planning Agency, the Economic Development Committee, the City Audit Committee, the Monuments Committee, and as a recent Parks and Recreation Commissioner. I am committed to no new taxes and maintaining local control of our town.

Having lived here for forty years, my children are "Hawks", each attending Laguna Hills High School. I care about and am deeply invested in this community.

I promise to work diligently, listen, and connect to every resident. My endorsements include all fellow city council members and many leaders in our community.

I am honored to serve Laguna Hills and humbly ask for your vote to complete my commitment.
