

NEEL PATEL

AGE: 31

Actuarial Analytics Director

Let's value genuine commitment over politics. I'm the candidate who has attended and spoken at city council meetings for years as a regular resident prior to running for office. I've served on the Parks and Recreation Commission and now as Vice Chair of the Traffic Commission. I've even helped save the city \$40,000 annually on energy costs.

I work as an Actuarial and Analytics Director at a Fortune 200 company and my wife is a doctor. As the next generation, we are committed to the future of Laguna Hills. We all deserve a council focused on long-term value that prioritizes residents first. My goals if elected:

Lower the Crime Rate to Match Surrounding Cities

Build a New Library, Buildout Our Last Planned Park, & Construct a Lakeside Amenity: All possible without impacting the city's budget

City Beautification and Roadside Landscaping

Equal Investment Across Neighborhoods: It's time city hall treats all neighborhoods equally

Honest Government: I pledge to refuse money from apartment developers and utilities

I genuinely care about the future of Laguna Hills and I am well informed on the issues. Details matter and I have a plan.
