

SHARI L. HORNE

Mayor Pro Tem

I'm an experienced incumbent on the Laguna Woods City Council and currently Mayor Pro Tem. I also serve as a Senior Assemblywoman in the California Senior Legislature. Much has been accomplished in my tenure on the Council, but there are some things I still want to do and see through to the end. This past term we were able to open our first cannabis Dispensary. Sales tax to the City should be nicely increased, and, if so, I want to direct those funds to subsidize our lower income seniors with water heater permits, dual pane windows and grab bars among other things. Many seniors have a fixed income and expenses can be difficult, I want to help with these quality of life issues. The City's new Fire Station will break ground next year and I'm excited about making that happen. The Fire Station will be able to get to everyone faster and with fewer sirens heard going up and down El Toro Road. The new Library we opened last year is very busy. Our Senior Mobility taxi plan has been improved and is in more demand than ever.
