

COLSON TEAL

AGE: 20

Political Science Student

Having lived in Placentia for the past twenty years, I am keenly aware of how recent decisions made by current city administration have brought setbacks to our community. Mismanaged projects, an upcoming budget deficit, and unkept promises challenge our faith in our city leaders. It should not be this way.

Placentia City Council needs to be more fiscally responsible. A lack of fresh perspective has led to expensive pet projects while basic city government responsibilities such as repaving roads have been left unfilled. I will make sure city hall cuts back on unnecessary spending while redirecting our money back where it belongs; fixing Placentia's lacking public infrastructure.

I promise to properly support our Placentia Police and Fire Departments. Our current council has failed to provide Placentia's emergency services with the equipment and resources to best serve our community. I will push for funding to go where it belongs; towards modern equipment, proper facilities, and higher salaries for our first responders.

Our city needs a new voice on council that will support our community first and foremost. I am the change our city needs. Vote Colson Teal for Placentia City Council, District 5.
