

CARLOS MANZO**AGE: 52**

Westminster Council Member

I ran for City Council in 2020 determined to help find solutions. As an early supporter of the new Central Cities Navigation Center, I worked tirelessly to provide our police with this critical resource to address homelessness. I was also a strong advocate for hiring more Homeless Liaison Officers. And City improvements were central in my efforts, as I voted to allocate funds for new playground equipment, soccer fields, and baseball diamond upgrades at our parks, along with a community garden.

To prosper, however, we need new businesses. It's why I worked diligently to help develop the Westminster Mall Specific Plan, the blueprint by which the City will ensure responsible development of this valuable property. I also voted to approve electronic billboards, a revenue source which will earn some \$120 million over the next 30 years.

My wife Lisa and I raised our family in Westminster. Our children and grandchildren are still here. It's why good government, and a financially sound City, are so important to us.

As a measure of my success, both the Westminster Police Officers' and the Municipal Employees' Associations back my candidacy. I hope I can count on your support as well.
