

NICOLE WILTSHIRE

Small Business Owner

Cleaner Tomorrow, Stronger Community – Nicole Wiltshire for
Costa Mesa Sanitary District

I've been lucky to call Costa Mesa home since 2009, and I truly cherish everything that makes our community special. Originally from Oklahoma City, I've found my true home here, where my family and I love exploring the Back Bay and enjoying Costa Mesa's beautiful parks.

Professionally, I help small businesses communicate clearly and achieve their growth goals. Previously as a project manager, I learned how to deliver complex projects on time and within budget. These experiences have prepared me to be a results-driven leader on the Sanitary District Board.

As your Costa Mesa Sanitary District Board Director, my priorities are to protect our waterways, expand recycling programs, and make sure that all residents know about the services we have available to us.

My love for the outdoors fuels my passion for keeping Costa Mesa healthy and vibrant. I'm not a career politician—I'm a neighbor who cares about our city and wants to make sure we maintain a reliable, efficient, and environmentally responsible sanitation system. Together, we can keep Costa Mesa thriving for generations to come.
