

KEN CALVERT

U.S. Representative

It is an honor to represent our region in the U.S. House of Representatives. I have a proven record of fighting for you and delivering results for southern California. I was honored to receive the most votes in the June Primary Election in this district and I am eager to earn your support once again.

As a Representative for Orange County and southern California, I have helped secure several billion dollars in federal funding for critical Orange County transportation, flood control, and water supply projects. I am honored to be endorsed by many Orange County leaders, including Orange County Supervisor Don Wagner and Rancho Santa Margarita Mayor Tony Beall.

In Congress, I am leading efforts to lower costs for American families, including lowering energy and gasoline prices by increasing energy supplies here in California. I am also spearheading the crackdown on fraud by introducing the Zero Tolerance for Fraudsters Act, which will impose mandatory minimum prison sentences for convicted fraudsters.

Your family's safety is one of my highest priorities. I have consistently supported a strong border, our law enforcement officers, and tough on crime policies. I have earned the endorsement of local law enforcement organizations, sheriffs, and district attorneys.

I strongly believe we should improve the integrity of our elections by making Voter ID mandatory. That is why I have been a leader on Prop 39, the California Voter ID initiative.

As a congressman with a proven and effective record of delivering for Orange County, I humbly ask for your vote.
