

YOUNG KIM**REPUBLICAN**

United States Representative, 40th District

I first ran for Congress because, like you, I believed our country was heading in the wrong direction. Career politicians put special interests and personal gain ahead of hardworking families. We deserve better.

In Congress, I've broken through the gridlock to deliver real results for families facing skyrocketing inflation, rising costs, and increased crime.

Lowering Costs, Cutting Taxes: Inflation has driven up the cost of gas, groceries, and everyday necessities. I supported the largest tax cut in American history, fought to increase the SALT deduction making life more affordable, and helped return more than \$33 million owed to hardworking taxpayers.

Keeping our Families Safe: I will always back law enforcement and fight to keep dangerous criminals off our streets. That's why I'm endorsed by the Association of Orange County Deputy Sheriffs.

Holding Congress Accountable: Too many career politicians have used public office for personal gain instead of public service. I'm the only candidate in this race who supports term limits and has championed legislation to ban Members of Congress from trading stocks. I'll hold career politicians, both Democrat and Republican, accountable to the American people.

I have a strong record of being an independent voice, and am ranked among the most bipartisan and effective members of Congress.

That's why nearly 100 local, county, and state elected officials and education leaders have endorsed my campaign. I would be honored to earn your vote so I can continue fighting to lower costs, keep families safe, and restore the American Dream.
