

**DAVE MIN**

United States Representative/Father

**DEMOCRATIC**

Why have superPACs spent over \$4.5 million opposing Dave Min?

Maybe it's because Congressman Dave Min refuses to take corporate PAC donations and has spent his career fighting corruption and working to expand economic opportunity. Dave began his career prosecuting Wall Street fraud at the U.S. Securities and Exchange Commission. He later taught at UC Irvine School of Law and testified six times before Congress on issues related to financial fairness and stopping fraud.

Or perhaps it's that since joining Congress in January 2025, Dave's led the efforts to stand up to the Trump administration's unprecedented attacks on our democracy and the rule of law, while fighting to lower costs. Dave opposed Congressional Republicans' efforts to raise healthcare costs and has repeatedly voted against ICE funding, called for criminal investigations into ICE misconduct and opposed ICE's efforts to open an office in Irvine.

It could be because Dave has been a relentless force against corruption in our government. Dave chairs the Anti-Corruption Task Force and sponsored legislation to end stock trading by members of Congress and White House officials. As part of the House Oversight Committee, Dave helped force the release of the Epstein files.

Dave is backed by dozens of local Orange County leaders you trust. Police officers and firefighters have endorsed Dave because of his strong pro-safety record. He's also endorsed by Planned Parenthood and Sierra Club and teachers, nurses, and healthcare workers.

Dave and his wife are raising their three kids here in the OC and working every day to make sure every child gets to grow up with the same opportunities and freedoms he had.
