RHONDA SHADER **REPUBLICAN**

Local Small Businesswoman

I'm a community advocate with a long record of public service. I was elected to the Placentia City Council in 2016, served two terms as Mayor, and launched Placentia's first Fire Department.

I've been a champion for fiscal responsibility. When I took office, our city had $49 in reserves. I made the necessary decisions to get Placentia's financial house in order, and that's exactly the discipline Sacramento is missing. I encouraged a culture supportive of local small businesses and development that brought substantial economic improvements to our city, and I prioritized public safety by making sure fire and police had the tools they needed to keep residents safe, with some of the fastest response times in the county.

I bring practical, real-world experience to public office. I am a local small business owner. My experience in building a small business will help me change the way Sacramento politicians do their business, by fighting for local small business and working families.

My priorities are clear: bringing down the cost of living, keeping our neighborhoods safe, standing up for small businesses, and rooting out the waste, fraud, and abuse draining our tax dollars.

I live in Placentia with my husband of 25 years and am a proud parent and grandparent.

I'm running to make Sacramento work for you, not the other way around. I would be honored to earn your vote for State Senate.
