CHLOE SERRANO
Education Policy Advisor

My experience working with community colleges, public policy, and local government will help guide our district through the challenges facing higher education while keeping students at the center of every decision.

As your community college trustee, I will work to:

Expand workforce development and career education programs that prepare students for well-paying careers while strengthening partnerships with local employers.

Address declining enrollment by reaching out to former students, adult learners, and working families, making it easier to return to college and complete a degree or certificate.

Support student success by expanding academic support, transfer opportunities, mental health resources, and basic needs programs that help students stay enrolled and graduate.

Champion first-generation college students by improving access to counseling, financial aid, and mentoring so every student has the opportunity to succeed.

Strengthen services for veterans by supporting programs that help them transition to college, earn credentials, and enter the workforce.

Ensure the district remains financially responsible while maintaining high-quality instruction and preparing students for the changing workforce of tomorrow.

As a UCLA graduate, former Fullerton College Student Trustee, and California higher education policy advocate, I have dedicated my career to expanding educational opportunity and helping students succeed.
