CONRAD MAZEIKA **AGE: 42**
Nonprofit Executive

I am running for Coast Community College District Trustee to ensure our community colleges prepare students for the opportunities of tomorrow.

I earned my degree in History from DePauw University and have built a career helping people and organizations succeed through financial planning, business development, real estate, and civic leadership. As President of the Baltic American Freedom League, I have worked with community leaders, educators, and elected officials to advocate for freedom, education, and strong partnerships.

Our community colleges are critical to our region's future. As Trustee, I will champion a Tech Renaissance in Huntington Beach by expanding partnerships with local employers, strengthening career pathways, and preparing students for high-demand fields including artificial intelligence, cybersecurity, advanced manufacturing, healthcare, and skilled trades.

I believe in responsible stewardship of taxpayer resources, accountability, innovation, and ensuring students have access to affordable education that leads to meaningful careers.

Together, we can build a stronger connection between education and opportunity, empowering students, supporting local businesses, and keeping our community at the forefront of innovation.

I respectfully ask for your vote.
