XERXEZ MEGINO CALILUNG **AGE: 62**
Dentist

As a long-time local resident, small business owner, and healthcare provider, I am dedicated to serving our community with integrity, leadership, and sound judgment. For over thirty years, I have operated a private practice, managing operations and supporting dedicated staff. My business and leadership experience gives me a practical understanding of fiscal responsibility, effective management, and the economic challenges facing our region.

A vital priority for our community is addressing workforce issues. We must focus on educating local students and creating opportunities that encourage them to bring their skills back into Orange County jobs. Investing in workforce development and supporting local enterprise ensures our local economy remains vibrant, competitive, and sustainable for future generations.

In addition to my practice, I have served in leadership roles with local and state professional organizations, working collaboratively on regulatory standards and community representation. My goal is to bring a balanced, practical perspective to local governance, emphasizing transparent decision-making, responsible resource management, and strong community investment.

I respectfully request your vote to serve our community and build a prosperous future together.
