

JUSTIN AGUIRRE

Parent

It's time to bring common-sense leadership back!

I'm Justin Aguirre, a lifelong Placentia resident, PYLUSD graduate, and father of three children currently attending our district schools.

For years, I have been actively involved in PYLUSD, advocating for students, parents, and our community. I'm running because I believe our schools must return their focus to what matters most: academic excellence, parental involvement, school safety, and preparing every student for future success.

I will fight to protect parental rights, protect girls' sports and spaces, keep inappropriate political ideology out of our classrooms, and ensure parents remain the primary decision-makers in their children's education. I will demand transparency and fiscal responsibility, prioritize classroom spending, and oppose unnecessary debt and bonds that place additional burdens on taxpayers.

I will work to expand partnerships with our local colleges. However, college is not the only path to success. We must also expand career technical education programs, including skilled trades, apprenticeships, and other pathways that prepare students to meet workforce demands.

When elected, I'll be the trustee with children currently attending PYLUSD schools. I'm personally invested in the future of our district and respectfully ask for your vote.
