

CARRIE BUCK

Governing Board Member, Placentia-Yorba Linda Unified School District

Public education is about more than reading, writing, and arithmetic. It's about preparing students to think critically, adapt confidently, and thrive in a rapidly changing world. I will continue to build on PYLUSD's tradition of excellence while preparing students for tomorrow.

Under my leadership the district has pivoted from wasteful spending to responsible budgeting benefiting all students. I am proud of the progress we are achieving; strengthening our district's financial future, building trust through integrity and transparency, advancing academic excellence, strengthening special education, expanding career technical education, athletics, & arts opportunities, and supporting every student.

Our community deserves transparent, accountable governance where every decision is guided by what is best for students.

As the daughter of two special educators, a mother of three PYLUSD graduates, and a nonprofit leader dedicated to ending youth and family homelessness, I understand students' strengths and challenges. My record reflects a commitment to students, families, community partnerships, fiscal responsibility, and transparent, accountable governance that puts students first.

The choices we make today will shape our students' futures for years to come. Experience matters, so does a clear vision for the future.

I'm asking for your vote for re-election to the PYLUSD School Board.
