KELLY FELTON
Educator/Professor/Parent

As a parent, educator, and scientist, I am running for the Tustin Unified School District Board of Education to ensure every student receives an outstanding education in a safe, supportive, and academically focused environment.

My husband and I raised our two sons in public schools, and I understand firsthand the importance of strong schools and engaged families. I hold a doctorate in education and two master's degrees in science, and have spent more than 20 years teaching science at the college and high school levels.

From cancer research labs to biotechnology classrooms, I know the value of critical thinking, evidence-based decision-making, and preparing students for success in college, careers, and life.

As a Board member, I will keep students at the center of every decision, promote academic excellence, ensure fiscal responsibility and transparency, and strengthen partnerships with parents. I will support career technical education, arts, music, and athletics, plan for declining enrollment and aging schools, and protect taxpayer resources.

I will bring practical leadership, put students first, and preserve the district our community is proud of. I would be honored to serve.
