ZIGGY MCBRIDE
Educator/Librarian/Parent

I am running for the Tustin Unified School District Board of Education because every decision should begin with one question:

What is best for students?

For more than seven years I have served TUSD as a Library Media Technician and Literacy Specialist, helping students develop a love of reading, strengthen critical thinking, and build confidence. By modernizing library programs, leading family literacy initiatives, and supporting parents, I have seen firsthand how strong public schools change lives.

My experience also includes securing grants, managing budgets, coordinating volunteers, directing youth camps, and building community partnerships. These roles have prepared me to make thoughtful, responsible decisions that support students, educators, and families.

As a Board member I will keep students at the center of every decision, support our teachers and staff, promote academic excellence and be responsible with fiscal stewardship. I will work to strengthen parent partnerships, and ensure transparency, open communication, safe schools, and balanced technology use.

Tustin Unified is exceptional because of its outstanding students, dedicated educators, and engaged families. I would be honored to help our district continue to thrive for generations to come.
