

VERNON MILLER

Realtor

As a product of this school district, I know firsthand what makes it special. I walked these campuses, made lifelong friends, and learned from teachers who shaped who I am today. Today's students deserve a board that understands this district and has a vision to help them thrive.

I'm running on three principles: Educate our students to the highest standard, Empower parents to be partners in their children's education, and Energize our community with renewed trust and respect for the board.

Our district faces real challenges that require a fresh perspective. We must close a \$3 million budget deficit with practical, forward thinking solutions. Recent turmoil has strained trust with our families and we must rebuild faith in our board by making decisions openly and keeping our community informed, while retaining strong school leadership because stability helps students succeed.

I'm not running to bring politics into the classroom. I'm running to keep the focus on academics, responsible leadership, and preparing every student for success after graduation.

This district invested in me, and now I'm ready to give back by serving the next generation of Cypress students. I'd be honored to earn your vote.
