

**CECILIA HUPP**

Councilmember/Business Owner

As your Councilmember, I have focused on protecting Brea's future through:

Strong Public Safety

Responsible Leadership

Sound Fiscal Management

I helped arrange the purchase of three new fire engines and one ladder truck to strengthen emergency response and ensure our firefighters have the equipment they need to serve our community. I also secured a grant to establish an Integrated Crime Center, enhancing public safety by providing law enforcement with advanced technology and real-time information to better prevent and respond to crime.

In addition, I helped secure more than \$28 million in federal and state funding, bringing your tax dollars back to Brea to invest in local priorities rather than leaving them elsewhere. While many surrounding cities and others across California have sought new tax measures, I have worked to keep Brea financially strong without asking residents for additional taxes.

During my time on the City Council, Brea has maintained a balanced budget and a 25% reserve, ensuring long-term fiscal stability and preparedness for future challenges. I remain committed to protecting taxpayers, strengthening public safety, and preserving the high quality of life that makes Brea an exceptional place to live, work, and raise a family.
