

CARLOS FRANCO**AGE: 36****Buena Park Councilmember/Businessowner**

Buena Park is more than where we live—it's our home. It shaped who I am, and serving our community has been the greatest honor of my life.

As your Councilmember, I've worked to bring people together while delivering meaningful results. I helped champion Coyote Park, transforming underused land into a unique gathering place where families can connect and children can play. I have hosted community town halls, strengthened partnerships with local schools, nonprofits, and businesses, and expanded youth leadership opportunities through the Buena Park High School Interact Club because investing in young people is investing in Buena Park's future.

I believe leadership begins with listening. Whether advocating for responsible spending, improving neighborhood infrastructure, supporting local businesses, or helping residents navigate City Hall, my focus has always been practical solutions that strengthen our community.

There is still important work ahead. Together, we can build safer neighborhoods, a stronger local economy, preserve Buena Park's unique character, and create opportunities for future generations.

I would be honored to earn your vote for re-election and continue serving with integrity, transparency, and building community through service.
