

DANIEL KIM

Fullerton Commissioner/Businessman

My family and I immigrated to the United States when I was 4 years old. We achieved the American Dream: I graduated from UCLA and Harvard, and started a successful career. I married, becoming a father of two children.

This was shattered on August 14, 2015, when a falling tree killed our son in his sleep during our family Yosemite trip.

We turned this tragedy into a way to honor our son, who had planned to start a program providing musical instruments and lessons to underprivileged children: we created the Dragon Kim Foundation to fulfill his dream. We've grown to also provide leadership training to help students launch service programs and award college scholarships. 100% of our students go on to college.

Professionally, I'm a turnaround specialist: when companies are failing, I move them back to profitability. As I learned about Fullerton's multimillion dollar budget deficit, I knew I needed to help.

If you elect me as our Councilmember, I will:

- Eliminate waste, make cuts, and increase revenue to fix Fullerton's budget crisis

- Ensure police and firefighters have what they need to protect Fullerton neighborhoods

- Repair Fullerton's roads after years of neglect

I request your vote to help turn Fullerton around!
