

JOZEF MALDONADO**AGE: 30**

Chemist

Growing up in a working-class family during the 2008 financial collapse, I saw firsthand how quickly a family can go from comfortable to crisis. After working two jobs while earning my degree in Chemistry from UC Davis, I joined the Fullerton community knowing the importance of hard work and cooperation. I ask for your vote as a neighbor with experience making the city work for all of us.

Over the past few years, I've volunteered helping families access food and school supplies and served on the Parks and Recreation Commission. That experience has taught me that good governance involves listening to residents, solving problems, and delivering results.

Once elected, I promise to:

Protect public safety funding to ensure strong response times.

Expand funding for our Senior Mobility Program and increase access to community centers and services.

Invest in small business development and social spaces throughout downtown to streamline permitting and increase foot traffic for businesses along Harbor.

I'm honored to be endorsed by:

Councilmember Ahmad Zahra

Councilmember Shana Charles

Fullerton School Board Trustee Vanesa Estrella
