

LONG NGUYEN**Urgent Care Doctor**

I'm proud to call Garden Grove my hometown and West Grove my neighborhood, where my family set roots.

I grew up in Garden Grove and attended GGUSD schools from elementary through high school. Since attending medical school and completing my residency, I've strived to improve the quality of life for each of my patients.

My career as an urgent care doctor is based on listening to my patients and seeking solutions before symptoms worsen. Like in medicine, I believe taking a preventative approach towards our city's issues, like our aging infrastructure and homelessness, can help prepare us for the problems of tomorrow.

As your District 1 representative, I will continue supporting our local economy and work to revitalize the business community in key areas like the Valley View corridor and attract more investment in the City of Garden Grove.

Together with the City Council, I will work to ensure our families feel safe in their neighborhoods, our budget stays balanced, and policy decisions are fiscally responsible.

Like any parent, I want my children to grow up in a neighborhood that is safe, clean, and spacious.

Join me to ensure District 1 remains a place we are proud to call home!
