STEVEN ALVES
Small Businessowner/Dad

With traffic getting worse, roads in need of repair, and a growing budget deficit, we need to bring the focus back to what really matters to the residents of District 5.

As your councilmember, I will bring disciplined, fiscally responsible leadership, professionalism, and bridge-building skills honed over years of doing business around the world. My priorities: balancing the budget without cutting essential services; protecting public safety; maintaining infrastructure; and keeping the University Park Library open.

I have called Woodbridge home for 31 years, raising two children, and volunteering for over 14 years in local Scouting. My wife and I built our life together in this community, and we will celebrate our 30th anniversary in November.

I served as Chief of Staff to our Vice Mayor, working on Irvine's major issues, including the budget deficit. I built strong relationships with city staff and department directors, engaged with residents, and supported local businesses.

I have successfully run my own international business since 2005, and I serve on the Irvine Community Alliance Fund board.

District 5 deserves a representative with deep community roots, real experience, and the judgment to protect what makes Irvine work. I am ready to serve on day one.
