SCOTTY HONG **AGE: 34**

City of Irvine Sustainability Commissioner

As our district elects its own Councilmember for the first time, I ask for your vote. I'm running a grassroots campaign to ensure that our district — which includes UCI and the Jamboree/MacArthur Corridor — has a strong advocate at Irvine City Hall.

I earned my undergraduate degree from Harvard University and a Master of Public Administration from Cornell University. I currently serve as an Irvine Sustainability Commissioner and as Chief Policy Advisor to the Mayor, helping to shape our City's policies on public safety, transportation, sustainability, housing, and quality of life.

As your Councilmember, I will:

Expand the free Irvine Connect shuttle bus system throughout our district, connecting UCI and our residential communities.

Reduce traffic and improve lighting, sidewalks, and walking trails.

Increase neighborhood policing and strengthen fire and emergency services.

Support affordable housing for working families, professionals, and students.

Lower electricity costs by withdrawing from the Orange County Power Authority, which charges Irvine residents the county's highest rates and relies primarily on fossil fuels. Instead, I'll expand rooftop solar and battery storage programs; plant another 100,000 trees; and speed the transition to greener transportation.

With your support, we can build an even brighter future for our district and all Irvine residents!

Thank you,
Scotty Hong
