SCOTT MILLER
Laguna Hills Traffic Commissioner

Laguna Hills is my home. I care deeply about our city, our neighborhoods, and the future we share.

My public service experience includes serving as a mayor, city council member, and regional government leader in another California community. I also served our country as a United States Marine and built a career as a cybersecurity officer. Today, I am honored to serve Laguna Hills as the current Chairman of the Laguna Hills Traffic Commission.

My priorities are safe neighborhoods, strong support for law enforcement, a thriving local business community, responsible stewardship of taxpayer dollars, thoughtful planning, and responding to residents.

I am prepared to serve from day one. I will ask difficult questions, study the facts, listen respectfully, and pursue practical solutions that improve daily life. I bring independent judgment, transparency, accountability, and commitment to preserving the character and quality of life in Laguna Hills.

Public service is a responsibility, not a title. I respectfully ask for your vote to represent District 4 while working for the best interests of all Laguna Hills residents with integrity, experience, and dedication to our community and it's future.

Respectfully serving you,
Scott Miller
