BECKY KEENE
Systems Analyst

Lake Forest is currently well-off financially due to major housing developments and fees paying for new city buildings and parks.

In the future we will be more dependent on property and sales tax. To keep up our city services, we'll need to watch the money – no waste on pet projects or fighting Sacramento. This means going through budgets and contracts that cover services from wildfire mitigation to public safety to ensure our funds and values are supported. This is boring work.

I've been a CPA for 44 years. I do boring – carefully and proudly, and in your best interest!

I have lived in and loved Lake Forest since 1992. I'm semi-retired and would like to give back to the City. See my website below for detail.

My husband and I have raised 2 children here. I've volunteered with various organizations including the El Toro High School PSTO from 1996 through 2004 (Auditor, President) and on the Lake Forest Race Committee until 2015.

I've attended the Lake Forest Civic Academy, City Council and Audit meetings and studied the ACFR (financials).

My financial and technical background will bring complimentary perspectives to the Council.

I look forward to working for you!
