**BRITTANY THOMPSON** **AGE: 40**
Community Volunteer

As a wife, mother of three, nonprofit founder, and ordained minister, I believe the strongest cities are built by strong families, connected neighborhoods, and neighbors who serve one another.

Lake Forest is more than where we live—it is our home. I am running for City Council to help preserve the safe, family-friendly community we cherish while preparing our city for a strong future.

My priorities are clear: support excellent schools that help every child succeed, champion our local businesses as the backbone of our economy, and protect the quality of life that makes Lake Forest an exceptional place to raise a family.

I believe leadership begins by listening. I want to bring our neighborhoods together, encourage greater community involvement, and build relationships that strengthen trust across our city. When we work together with respect and a shared purpose, our entire community benefits.

It would be an honor to serve Lake Forest with integrity, transparency, and a servant's heart.
