AMY STEVENS
Mother/Communications Consultant

Lake Forest is where my family's life happens. It's school drop-off, neighborhood walks, community events, beautiful parks, and people we love and rely on. I'm running for City Council because decisions made at City Hall shape our everyday moments.

Hi, I'm Amy! A Lake Forest mom, communications professional, former La Madera PTA president, and CERT-trained through the city's Community Emergency Response Team program. Serving in our local schools and community has shown me how much can be accomplished when people feel heard and have a meaningful role in solving problems.

That same approach has guided my work for 20+ years. I have helped public agencies and community organizations navigate difficult issues, communicate during emergencies, and bring people with different perspectives together to find practical solutions.

As a councilmember, my priorities will include safer streets and e-bike education, stronger emergency preparedness, well-maintained open spaces, thoughtful planning that respects neighborhoods and infrastructure, and attracting quality businesses to vacant storefronts so residents have more local options and the city strengthens its tax base.

I will show up throughout the community, listen carefully, and make choices with District 4 residents in mind. I would be honored to have your vote.
