

ALBERT "AJ" RICCI**AGE: 32**

Real Estate Agent

I'm AJ Ricci, born at St. Joseph Hospital, raised in Orange. My entire education has been built in this city, from OUSD through Santiago Canyon College to Chapman University, where I've earned my degree in Political Science and ongoing education in real estate. Orange is my home, and I've spent my life promoting it.

I've served in public safety at a neighboring police department, and today I volunteer with the Community Emergency Response Team administered through the Orange Fire Department. In my professional career I've introduced countless families to calling Orange their home and have helped local businesses open their doors right here in Orange. I know what it takes to keep Orange's economy moving forward.

I've seen Orange's challenges firsthand through my years living in this city. We need to build a more efficient city hall and not settle for shortsighted policies that only fix today's problems for a few years. I'm committed to solutions built to serve Orange for the next twenty years and beyond.

Orange needs Transparency, Efficiency, and Accountability.

I respectfully ask for your vote.
