

VICTOR CABRAL

Councilmember/Attorney/Businessman

As Mayor and City Councilmember, I prioritized enhancing public safety by hiring additional sheriff officers and creating a Rangers program.

I continue to fight to preserve our beach community, and as Mayor I helped restore 450,000 cubic yards of sand to our beaches.

I worked with the Downtown Business Association to bring in new restaurants and shops. I fought to preserve outdoor dining facilities on Del Mar and worked with the North Beach HOA to develop a vibrant Miramar Food Court complex.

I worked to bring a pickleball complex to San Clemente, add a soccer field, replace turf, and add playground equipment, and I am focused on revitalizing the San Clemente Municipal Golf Course.

As a member of the Orange County Fire Authority, I helped station a helicopter in San Clemente to ensure we can respond to fires quickly, and I supported the goat grazing program to clear our hillsides of flammable brush that endangers homes.

As Vicechair of the San Onofre Nuclear Generating Station CEP, I worked with federal and state governments to identify suitable sites outside California to move the stored nuclear fuel. And today I am fighting to slow down the landfill expansion adversely impacting Talega.

A native of California, I earned degrees from the University of California and Harvard.
