

DONNA VIDRINE

Nurse/Business Owner

My name is Donna Vidrine, and I am running to represent you on the San Clemente City Council. I believe government should serve the public interest. Our community deserves thoughtful leadership focused on local priorities. I will work to improve transportation and parking, support local businesses, expand opportunities for working families, make first-time homeownership more attainable, recognize the needs of seniors, protect our coastline, reduce wildfire risk, and responsibly advance the removal of nuclear waste from San Onofre.

For decades, I have developed my leadership skills as an Air Force Captain, healthcare professional, nursing administrator, and small business owner. These experiences have taught me to listen carefully, solve complex problems, make difficult decisions, and bring people together to achieve practical, implementable solutions. The decisions we make today will shape San Clemente's future for generations.

Public service is a calling. You deserve a council member who is accessible, transparent, ethical, and committed to serving every resident. I am beholden to no special interests and will work every day to preserve, protect, and enhance the quality of life that makes San Clemente such a special place to call home.

I respectfully ask for your vote.
