

DWAYNE SHIPP**AGE: 51**

Caregiver/City Commissioner

As a Community Development Commissioner, caregiver, and community organizer, I am running for Mayor because I believe Santa Ana deserves leadership that listens, leads with integrity, and puts residents first. Our city is filled with hardworking families, thriving businesses, and young people who deserve every opportunity to succeed.

Through years of community service, I have worked alongside residents to strengthen our neighborhoods, support local businesses, mentor youth, and bring people together through action – not just words. I believe leadership begins by showing up, listening, and finding practical solutions that improve everyday life.

As Mayor, I will prioritize public safety, economic growth, neighborhood revitalization, government transparency, and practical solutions to homelessness while investing in opportunities for our youth, seniors, and working families. My goal is to build a cleaner, safer, and more united Santa Ana where every resident has the opportunity to thrive.

I love this city because it is my home, and I believe our greatest days are still ahead. Together, we can move Santa Ana forward with leadership that is accountable, compassionate, and committed to every neighborhood. I respectfully ask for your vote and the opportunity to serve as your next Mayor and work alongside every resident every day.
