

BENJAMIN VAZQUEZ
Teacher/Councilmember

I'm Benjamin Vazquez, and I'm asking for your vote to continue delivering results for Santa Ana families. As your City Councilmember, I've fought to protect rent control and just-cause eviction protections so working families can stay in their homes. I led the fight for voters to put rent stabilization into the city's municipal code.

I've worked to reduce homelessness by 15% by expanding the hours of our Quality of Life Team (QOLT) and investing in family services that help keep people housed before they become homeless. We also cleared dangerous encampments along Bristol Street while connecting people to services, making our neighborhoods safer and cleaner.

I've brought new investment to Ward 2 by opening a new park on Bristol and supporting a library center in Pacific Park that will serve children, for years to come. As a public school teacher, I know the challenges working families face because I live them every day. I believe in practical solutions, fiscal responsibility, and putting our community first.

I'm committed to keeping Santa Ana affordable, safe, and a place where every family has the opportunity to succeed. I would be honored to earn your vote.
