DONALD TORRES **AGE: 26**
Councilmember

My name is Donald. I'm 26 and have lived in Stanton my entire life. My parents are labor organizers, and I grew up on picket lines and at negotiating tables. Watching workers stand together taught me that change happens when people unite. That belief guides my decisions on the City Council.

Serving Stanton as your Councilmember has been the privilege of my life. At Western High School, I support at-risk students facing depression and trauma, helping them stay in school and graduate.

I've spent my life serving the community that raised me, and I've proven I'll show up when Stanton needs me. On the Council, I cast the deciding vote to make livestreamed meetings permanent, helped place mayoral term limits before voters, and pushed to increase Sheriff's deputy staffing.

When immigrant neighbors faced uncertainty, I helped create a city immigration resource webpage. During the chemical evacuation, I went door-to-door helping neighbors get to safety and advocated for accountability.

My priorities remain practical: strong public safety, a balanced budget, and a diversified economy.

Stanton is my home, and its future is my priority. I'm asking for your vote to keep fighting for every family. Learn more at www.torresforstanton.org.
