MARLON-RAY VELASCO
City of Stanton Commissioner/Supervisor

I have dedicated my professional and personal life to public service because improving the lives of others and strengthening the community is at the heart of who I am.

This is why I am running for Stanton City Council.

Professionally, I work for the Orange County Health Care Agency, where I oversee programs that provide essential services to some of our most vulnerable neighbors, people living with HIV. I advocate for underserved populations by building strong partnerships with community-based organizations.

Locally, I have the honor of serving the City of Stanton as Vice Chair of the Stanton Community Services Commission. Since my appointment, I have worked to improve our parks and recreation facilities, most notably the Stanton Central Park tennis courts.

In my neighborhood, I am my Homeowners Association's President. In this role, I oversee the day-to-day operations, balance the annual budget, and lead efforts to identify opportunities to enhance neighborhood safety.

From countywide to citywide to my own backyard, I have a proven track record of helping those in need, ensuring fiscal responsibility, and building coalitions to advance the public good.

I hope to earn your vote so I can bring these skills to City Hall and improve the quality of life for all Stanton residents.
