**LEENA RAY**
Family Caregiver

For more than 22 years, I have proudly called Aliso Viejo home. As a longtime resident, parent, ratepayer, and business professional, I have a personal investment in our community and the essential services we rely on every day.

Water is more than a utility; it is essential to our families, our health, and our future. Residents deserve clear information, timely communication, responsible stewardship, and accountability.

I bring more than 20 years of experience in corporate marketing, digital strategy, project management, and business consulting. My career has required me to analyze data, manage budgets, measure results, solve complex problems, and adapt thoughtfully to change.

Today, my greatest responsibility is serving as a full-time family caregiver, which has deepened my commitment to protecting the health and future of our community.

If elected, I will advocate for transparency, fiscal responsibility, and meaningful community engagement. I will ask thoughtful questions, evaluate the facts, and work to ensure residents understand water quality, infrastructure investments, and how ratepayer dollars are spent.

It would be an honor to earn your trust and serve the community my family and I have proudly called home for more than two decades.
