BOBBY LAPOINTE
Retail Investor

As a husband, father of three, Army veteran, and longtime Orange County resident, I understand public service begins with responsibility. I am running for Division 2 Director of the Municipal Water District of Orange County to help secure safe, reliable, affordable water for our communities.

My Army work in information technology and network security taught me to protect critical systems, evaluate risks, and respond under pressure. I earned bachelor's degrees in History and Women and Gender Studies from California State University, Fullerton, along with associate degrees in Mathematics and Nutrition from Fullerton College. My education has been rooted in community needs—combining analytical thinking, health, and social understanding to better serve the public. As a retail investor managing my investment business, I evaluate risk, scrutinize costs, plan for the long term, and understand every dollar must serve a purpose.

I will apply those skills to protecting groundwater, strengthening infrastructure, expanding water recycling, improving wildfire preparedness, and reducing dependence on imported water. I will ask questions, explain decisions openly, and treat public money with care.

I will bring integrity, judgment, financial discipline, and a commitment to dependable water for every community I serve. Thank you for your consideration.
